

Robotic Pets Give Comfort to Our Residents

The pets are a hit in memory support

Pets are big part of many of our lives and bring us much joy. To combat loneliness and provide comfort and companionship, we have been able to enrich the lives of our residents at many of our facilities. Our Eden Prairie office staff campaign raised money to provide companion pets at many of our facilities. It warms our heart to know that these sweet plushies have given comfort to senior citizens, especially those living with dementia or Alzheimer's.

These sweet robotic pets have warmed the hearts at the following communities:

Anoka Rehabilitation & Living Center

Maplewood Care Center

Rochester Rehabilitation & Living Center
